

## School Sport Funding Summary and Impact

School Sport Funding is an amount of money that is put into a school budget in order to raise participation in sports, competitions and encourage healthy lifestyles.

In 2018-19 the school is receiving approximately £18 000.

At Bullion Lane we will spend the money in the following way in order to gain as much impact for the children as possible:

Continuation of the responsibility post for a teacher to organise PE, sports opportunities, competitions, clubs, liaise with Schools Sport Partnership (SSP) Membership to the School Sport Partnership

Fund sports coaches providing lunchtime and after school clubs (Simply Sport)

Buses/Coaches £800

Swimming Lessons £2850

Hoopstarz £200

Climbing equipment for hall

Total spend for 2017/18: £16,887

## **IMPACT of Sports Funding**

Our pupils demonstrate a greater skill set, enthusiasm and enjoyment for Sports and PE across the school.

95% of our Y6 children passed the 25m swim in Summer 2018.

78% could swim 25m competently.

The membership of the School Sports partnership helps to develop the teaching practices of all staff to deliver a higher quality of Physical Education sessions with a higher level of achievement observed in these lessons.

The development of the role of the Sports Leader in school is helping us to promote a healthy lifestyle with children from an early age and providing our pupils with a wider variety of sporting and healthy lifestyle experiences clubs for them to benefit from before, during and after school. This has increased participation in a number of sports with all clubs being oversubscribed this term. The impact of the sports funding is evident in the positive feedback received by the pupils, staff and parents. The impact can also be seen by the amount of children participating in lunchtime clubs and activities and as well as the successful participation in local festivals and sporting competitions.

By using playground leaders and continuing with our coaches and club involvement, these improvements are proving to be sustainable because of the motivation and enthusiasm of all parties involved.
